

## Qualitex - Preferred Products For All Your Finishing Needs! SUN GLOW® PRESS PADS

Leading the industry in fit, performance and durability, **Sun Glow® Press Pads** are consistently used by more award-winning dry cleaning plants, by a margin of 8 to 1, than any other press pad on the market.

When quality is a priority, Original Equipment Manufacturers in the U.S. install **Sun Glow Press® Pads** at the factory as part of their original equipment. In terms of quality and performance no other press pad compares to Sun Glow® press pads.

1. Sun Glow® Press Pads can increase your cost efficiency by: **1**  
**Reducing Finishing Time:** With Sun Glow® Pads, garments glide more smoothly and efficiently over the surface of the Pad, with just the right amount of hold, to improve and increase work flow.
2. **Increasing the Life of the Pad:** With proper use and maintenance, Sun Glow® Pads retain and maintain their original pressing surface longer than any other pad on the market. Longer retention means less frequent changing of your press pads.
3. **Improving Finished Appearance:** More customers judge the effectiveness of their dry cleaner by the finished appearance of their clothes. Sun Glow® Pads provide a better finish with their proper balance of quick steam and rapid vacuum recovery and the absence of distortions on the pressing surface.

## SUN GLOW® NOMEX® GRID PLATES

In 1995, Qualitex introduced the Sun Glow® Nomex® Grid Plate: the perfect complement to our Sun Glow® Press Pads.

- Designed for superior performance, with a scientifically engineered metal baffle, Sun Glow® Nomex® Grid Plates will improve your finishing quality and efficiency by:
  - reducing moisture and condensation
- virtually eliminating shine, moiré and double seam impressions
- evenly dispersing steam
  - providing unsurpassed durability

**QUALITEX® IRONING SHOES**

**...Your solution for hand finishing problems**

Although you may find a less expensive product on the market, Qualitex offers you the greatest value by providing a Shoe with thicker, longer lasting shoe than most other brands on the market.

- Qualitex Shoes:
  - Eliminate shine, scorch and the need for press cloths
- Safe to use on even the most delicate fabrics
- Balanced construction to eliminate arm fatigue
