

Compact Type Pattern Sewing Machine

- High speeds
Productivity is greatly enhanced with a 2,300 rpm top speed.
Feeding speed is 30 % faster than the previous models.
- Simple sequence function provided
Additional inputs and outputs are provided as a standard feature and can be customized for additional automation.
- Easy-to-use control panel
Feed can be easily changed between continuous feed and intermittent feed.
The normal mode (basic functions) and program mode (parameter functions) can be easily set with the control panel.
- Quality stitching
Mitsubishi's original feed method mechanism and latest control technology produces stitching without distortion.
Heavy threads up to 138 nylon top and bottom can be cut easily.
- Reduced power consumption
The popular Mitsubishi LIMISERVO X minimizes power consumption.
