

Expanded PLK-B1006 Pattern Sewing Machine

- Sewing area 200mm x 60mm
Clamp is air operated/Presser foot is electric solenoid operated.
Feeding speed faster than the previous models.
- Simple sequence function provided
Additional inputs and outputs are provided as a standard feature and can be customized for additional automation.
- Easy-to-use control panel
Feed can be easily changed between continuous feed and intermittent feed.
The normal mode (basic functions) and program mode (parameter functions) can be easily set with the control panel.
- Quality stitching
Mitsubishi's original feed method mechanism and latest control technology produces stitching without distortion.
Heavy threads up to 138 nylon top and bottom can be cut easily.
- Reduced power consumption
The popular Mitsubishi LIMISERVO X minimizes power consumption.
