

Wide Area Pattern Sewing Machine

- High speeds  
Productivity is greatly enhanced with a 2,000 rpm top speed. Also Feeding speed is faster than previous models.
- Simple sequence function provided  
Additional inputs and outputs are provided as a standard feature and can be customized for additional automation.
- Easy-to-use setting panel  
Feed can be easily changed between continuous feed and intermittent feed.  
The normal mode (basic functions) and program mode (parameter functions) can be easily set with the control panel.
- Quality stitching  
Mitsubishi's original feed method mechanism and latest control technology produces stitching without distortion.  
Thick threads up to 138 nylon can be cut easily.
- Reduced power consumption  
The popular Mitsubishi LIMISERVO X minimizes power consumption.
