Attaching System

Elevating Brands and Accelerating Performance
Throughout the Global Retail Supply Chain

Accelerate Performance: Custom Engineered Solutions

Our team of innovation experts, partner with customers to develop, deliver and integrate solutions that overcome customer and industry challenges while accelerating their performance throughout the global retail supply chain.

Attach Soft Goods to Cardstock or Baste Fabric During In-Process Manufacturing

Replace thread, staples and pins with our smallest and most versatile fastener. MicroTach applies these small, discreet nylon fasteners that hold fast and apply easily with a lightweight, handheld tool. Items stay in the presentation configuration most appealing to consumers.

Increased Speed and Flexibility for Manufacturers

- Contains 120 fasteners per clip, exceeding the industry standard of 50- or 100-fastener clips reloading downtime
- Optional brush anvil eliminates the need for opposing finger pressure behind the needle, allowing for simultaneous product placement and one-handed fastener application

Safer and Easier for Consumer Removal

- Reduces the risk of skin punctures to the consumer caused by alternative fastening methods such as metal pins and staples
- Fasteners are easily removed with a simple pull of the merchandise, reducing consumer frustration and damage caused by thread bar tacks

Durable and Reliable Materials

- Rugged body and metal feed mechanism withstands harsh manufacturing environments and high-volume production
- Fastener tensile strength is designed to hold items firmly, reducing the risk of product shifting during the transportation process

Elevating Brands. Accelerating Performance.

Experience Avery Dennison supply chain solutions at our worldwide Customer Design and Innovation Centers. For more information on the Avery Dennison MicroTach or to schedule a tour of our Customer Design and Innovation Centers, please call 800.543.6650, prompt 5, or e-mail rbis.solutions@averydennison.com.
