Stabilizer Shoe: N/Available

Ball Tip: Optional

Broad Stabilizer: N/Available

Baseplate: N/Available

Eastman®

Over a Century of Cutting Expertise

Eastman has combined our cutting experience with state of the art technology to develop the most versatile and powerful rotary shear. The Buzzaird has been designed for use in the most demanding global work environments, with unsurpassed dependability. It is an ideal tool for single-ply cutting of fiberglass, cloth, mat, rovings and other technical fibers.

The Buzzaird® is designed with a 20,000 RPM pneumatic motor suitable for wet environments. It is an extremely powerful rotary shear suitable for cutting single-ply leather, rubber, plastics, woven glass, coated materials, and much more. Available options include a Pelican head or swivel sharpener. Optional swivel sharpener is equipped with a 30 degree ball tip shear plate for close edge trimming.

Contact your Eastman distributor for a professional recommendation to your cutting application.
