

Custom Engineered Solutions

Avery Dennison® MicroPin™
Attaching System

Elevating Brands and Accelerating Performance
Throughout the Global Retail Supply Chain

Accelerate Performance - Custom Engineered Solutions

Our team of innovation experts, partner with customers to develop, deliver and integrate solutions that overcome customer and industry challenges while accelerating their performance throughout the global retail supply chain.

Virtually Invisible and Customer Safe Plastic Fasteners

MicroPin fasteners hold securely, yet are quick and easy to remove. A simple pull is all it takes and the consumer is ready to enjoy your product. No hidden pins in the fabric, no sharp pins on the floor.

Safe and Efficient Finishing Technique for Manufacturers

- Virtually eliminates injuries associated with metal pins
- Simple to use, integrating easily into any finishing operation
- Designed specifically to fit into current industry standard shirt-folding methods

Elevate Brand and Customer Loyalty with Better Looking Product

- No unsightly metal pins to detract from a fabric's look and appeal
- Easy removal means the last impression is as good as the first

Keep Merchandise on the Shelf, Not on the Clearance Rack

Because the MicroPin System leaves no holes in most fabrics, in-store refolding is easier and more professional looking.

Elevating Brands. Accelerating Performance.

Experience Avery Dennison supply chain solutions at our worldwide Customer Design and Innovation Centers. For more information on the Avery Dennison MicroPin or to schedule a tour of our Customer Design and Innovation Centers, please call 800.543.6650, prompt 5, or e-mail rbis.solutions@averydennison.com.
