EXTRA DUTY TRUCKS

Dandux Extra Duty Trucks are the most widely used and versatile in the industry. Complete with sewn on liners in either colored Glosstex or Natural Canvas, high tensile strength steel frames, hardwood runners and caster boards, and soft rubber casters.

POLY TAPER TRUCKS

Dandux Taper Trucks serve a variety of uses too numerous to document. The bodies are rotationally molded from high quality polyethylene resin and provide a smooth interior surface with encapsulated hardware. Step side construction provides added strength and durability. Available in three model types; Heavy Duty (metal base), Standard Duty (plywood base), and USDA (no base).

POLY BULK TRUCKS

Dandux Poly Bulk Trucks are ideal for handling large loads. Equipped with metal perimeter base, they are designed to handle large loads while maximizing space. Available in six colors and many sizes.

SHIPPING HAMPERS

Dandux Shipping Hampers help moves, store, and secure items. Come standard with a solid one piece, lockable wooden top that is used to protect valuable merchandise from dirt, dust, and pilferage. Standard in Natural Canvas and 8 different sizes.

ELEVATED TRUCKS

Dandux Elevated Trucks are a must for under counter storage, narrow aisle applications or anywhere space is an issue. Elevated base eliminate need for bending to place or retrieve items from bottom. Available in 4 different sizes and Yellow Glosstex or Natural Canvas.

POLY SKID BOXES

Dandux Poly Skids Boxes feature inter-locking legs for secure stacking. Rotationally molded from high quality polyethylene, constructed with built in fork pockets. Available in many sizes and styles (double or single wall).

POLY TILT TRUCKS

Dandux Tilt Trucks are ideal for collecting, moving and dumping materials. Available in 3 different model types (Hvy Dty, Std Dty, Utility Dty) and 4 different sizes (1/2, 1, 1 1/2, & 2 cubic yard capacity).

TOTE BOXES

Dandux Tote Boxes are perfect and efficient solutions for storing and carrying an assortment of items. Modular Dividable Boxes are available in over 100 different sizes, between Stacking and nesting. Over 250 different available sizes between nesting, stacking, and stack & nest styles.

POLY BOX TRUCKS

Dandux Poly Box Trucks are the strongest units of its type available. The unique Double Wall Flange provides superior strength when handling heavy loads. Truck bodies nest approximately 1/3 their depth when empty. Available in 12,16,18,24,32 & 42BU.

FRAME TRUCKS

Dandux Frame Trucks share all the great construction qualities as the Extra Duty Trucks with the added benefit of a lace on liner. Liners can be removed to wash or interchanged with another color. Available in 8 different sizes.

POLY SHELF TRUCKS

Dandux Poly Shelf Trucks easily convert from shelf to Bulk configuration. Each unit comes standard with 2ea metal framed wire shelves. Shelves come standard as removable but can be upgraded to captive to prevent misplacing. 9 different sizes to choose from

LOADUMPER

Dandux Loadumpers are ergonomically engineered for ease of handling. Since there is no lifting required heavy loads can be easily transported with reduced strain to operator. Available with optional tow assembly that permits loading and unloading without need to disconnect cart. Available in 4, 6, & 8CU FT capacities.
